

BORGA

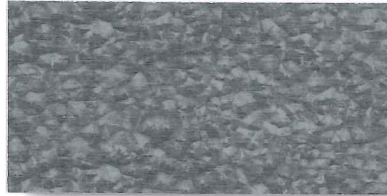

Steel Buildings & Components

Standard SMP Colors – 40 year limited warranty

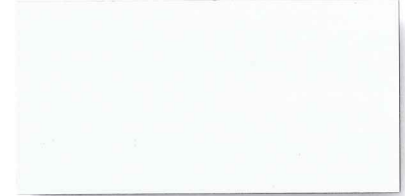

Borga Standard SMP Colors are formulated with a proprietary Silicone Modified Polyester paint system and premium ceramic IR Reflective pigmentation. Supplied by Continental Coatings Inc., these SMP colors are designed for outstanding weatherability, U.V. resistance and extended service life. Exceptional scratch and scuff resistance also provide fabrication, transit, handling, and installation performance advantages. Applied and high temperature baked over polyurethane primed hot-dipped galvanized or zinc-aluminum coated high strength steel substrate, this is the product of choice for many commercial, residential, and specialty building applications.

Zincalume (08)
SR = 0.27 TE = 0.29 SRI = .65

Galvanized (09)

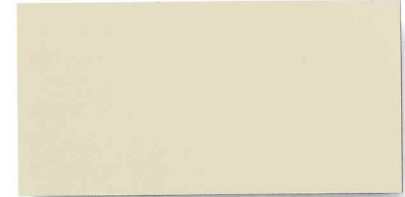

Polar White (07)
SR = 0.73 TE = 0.87 SRI = 78 ES

Weathered Copper (06)
SR = 0.28 TE = 0.87 SRI = 27 ES

Sierra Tan (10)
SR = 0.51 TE = 0.84 SRI = 58 ES

Light Stone (00)
SR = 0.65 TE = 0.87 SRI = 70 ES

Charcoal Grey (12)
SR = 0.29 TE = 0.85 SRI = 28 ES

Old Town Grey (03)
SR = 0.42 TE = 0.88 SRI = 27 ES

Tahoe Blue (01)
SR = 0.28 TE = 0.89 SRI = 29 ES

Colonial Red (04)
SR = 0.32 TE = 0.88 SRI = 33 ES

Indy Green (02)
SR = 0.28 TE = 0.87 SRI = 28 ES

Forest Green (11)
SR = 0.25 TE = 0.85 SRI = 23

SR = Solar Reflectance
TE = Thermal Emittance
SRI = Solar Reflectance Index
ES = Energy Star®
Steep Slope Compliant

Note: Color samples closely approximate actual coating color, but are limited by printing and viewing conditions.

Final color selection should be made from metal color chips, which are available from Borga Steel Buildings & Components.
